

Lab 09 Using UVM Scoreboard, Env and Test

Objective: To understand scoreboard, env and test classes in UVM.

1st task:

1. Copy your Lab 8.
2. Integrate Scoreboard class.
3. Observe the results.

2nd Task:

1. Add set_drain time of 40 time units before/after dropping the objection.
2. Observe the results.
3. How will you start writing your uvm based verification project?
